**PRABHAKARAN**

Thousands of precious lives have been lost in the three-decade old conflict that has plunged the country into misery. Despite intense efforts being made to bring lasting peace to our beloved mother land, the war still continues, displacing tens of thousands of innocent people including women and children. Why did this war erupt and to whom does it cater to? Can't all communities live in harmony and can't peace prevail in this beautiful isle? The movie "PRBHAKARAN" comes as a tribute to all peace loving people of mother Lanka
