## Accelerated Learning Scholarship Coaching

"No one else can claim that their students have passed the extrance exams due to their classes when these students have also attended other workshops. As you may know, there are six units that must be completed at a certain level to pass the entrance exam. We are one of the few places that train students for all six units. We provide competitive workshops, that other places fail to deliver. We are proud to say that our students pass those six units at a superior level, just by following our intensive program.
