DR MATHU H. LIYANAGE'S NEW NOVEL

THE ERRANT PROFESSOR

The Professor, living in separation, is a lover of nature and beauty who abhorred any sophistication. He valued his independence more than anything else in his life. He led a playboy-type-life-style, indulging in sensuous pleasures until he developed a sexual relationship with his favourite student Neeta. He took her with him on official overseas trips, meeting her expenses from the university funds; gave her good grades for assignments with or without them; and finally awarded her a Bachelor of Arts with Honours.

Allegations against him and the wild rumours in the campus forced him to give up the post and go into hiding in the countryside where he was able to pursue his pastime unhindered.

The girl went on a holiday in overseas with her boyfriend Jason who met with a car accident and passed away. She came back and met the Professor in keeping a promise that she would contact him on her return from the holiday.

THE NOVEL HAS BEEN HIGHLY COMMENDED BY TWO POPULAR ACADEMICS OF THE UNITED STATES
