

Robot

Tamil science fiction movie "Endhiran" or most famously known as "Robot" starring Rajnikanth and Aishwarya Rai has turned out to be a commercial success across the globe. It released on October the first setting cinemas a lite with happy audiences.

The film features Rajnikanth is dual roles, playing a professor and a robot. The storyline revolves around a scientist who has created a robot with the ability to comprehend and generate human emotions. Problems arise as the robot falls in love with the scientist's fiancé and is then programmed for world destruction by a rivaling scientist.

Shahrukh Khan the stunt man

We may already know what a great stunt artist Shahrukh is from his previous endeavours. But did you know, recently while shooting in Germany for "Don 2" Shahrukh plunged off a 300 feet building for a crucial scene in the film. Shahrukh himself confirmed this news by tweeting about it on his micro blogging site twitter.

He thanked his body doubles who had previously done the jump to give the long distance shots. Shahrukh seems very pleased with his thrilling performance. In 'Don 2', he plays the protagonist, a gang leader, and will again be seen in action zone wowing audiences.

The film was shot in two years and went onto to becoming India's most expensive film.

Mission impossible 4 - Starring Anil Kapoor

At an age where he is destined to play the role of the father, Anil Kapoor still remains one of the most sought after actors in Bollywood.

After his success in "Slumdog millionaire" it is reported that Anil was approached for a significant role in the action series "Mission impossible" for its fourth segment. We learned that he will be playing the role of an Indian playboy called Brij Nath, who is armed with international connections in high places. Looks like Anil landed himself a negative role!

He will be shooting for the film from November in Dubai.

We wish him all the best of his new adventure!

Mathematics, Physics and Science Tutoring

ESRS [Educational Support and Research Services]

India's first live action - 3D animation combination feature film

Toonpur Ka Superhero is an upcoming animation action comedy starring Ajay Devgan, Kajol, Tanuja and Sanjai Mishra in the leading roles along with a varying amount of animated characters. This animated film has caught everyone's attention as it is to be India's first 3D animation as well as live action (real life actors interacting with cartoons) movie.

The storyline is as follows, Aditya (Ajay) is a famous celebrity and is Married to Priya (Kajol). He is extremely successful but his children want him to be their hero in real life. Aditya finds an opportunity to fulfil this wish when he somehow lands in his kid's favourite cartoon show. Now he must work with the good guys (Devtoons) to fight off the bad guys (toonasurs).

The film is slated for release on the 17th of December this year. Kids watch out for this one, looks cute!
